Dear Parents and Parents Liaisons,

RE: Secondary Visual Arts - Visual Arts House Cup and 1st Competition Announcement

Introducing the Visual Arts House Cup! This is an event that contains several visual art competitions that will run throughout the year. This is an attempt to balance house point distribution across different academic areas.

For the remainder of the year, we will be running 3 more visual art competitions that will contribute points to the Visual Arts House Cup. Each individual competition will have a set number of points allocated to 1st, 2nd, 3rd, and 4th place as well as all participants. We will then take all these points and calculate an overall winner!

The Visual Arts House Cup will obviously need a trophy, so with this in mind, the first competition student's will be tasked with is **creating the Visual Arts House Cup Trophy!**

This is a sculpture-based task where you can either create a trophy from scratch using wood, foam board, pipe cleaners, clay, cardboard, or other suitable materials, or you could create the trophy using found objects that may relate to art such as paint brushes or palettes. You could then paint/spray paint them, stick them together and alter them in any way you like. See image for some ideas and inspiration.

The winning student's sculpture/trophy will be used as the actual Visual Arts House Cup!

Yours Sincerely,

Visual Arts Coordinator
Michael Grigoriadis
